

★ The Dudley Foundation presents:

● The Chris Dudley Basketball Clinic

Walt Disney World ●

★ As an added activity before the Friends for Life Conference, we will be hosting a one-day Chris Dudley Basketball Clinic. This clinic is reserved for children with type 1 diabetes ages 10-17 attending the Friends for Life Conference. The Clinic is designed to help improve basketball skills and to learn how to control diabetes while playing an intensive sport. The one-day clinic will also include discussions with Dudley about his real-life experience of having diabetes and playing professional basketball. Last year, Chris received a very warm welcome from all of the children and families at the FFL conference. We decided to expand the opportunity and bring a new activity to the conference. Roche Diagnostics, the makers of the ACCU-CHEK® products, is sponsoring the clinic. ★
