

DIABETES RESEARCH

**Are you 12-30 years old with type 1 diabetes?
Interested in diabetes research?**

**Researchers from the Division of Pediatric Endocrinology
at The Children's Hospital at Montefiore/Albert Einstein
College of Medicine are currently conducting two research
studies to look at the effects of Symlin & Byetta on
after meal blood sugars.**

**One study has 3 overnight visits with \$700 compensation
and the other has 5 outpatient visits over a 6-7 month period
with \$640 compensation**

If interested, please contact us!
